ABOUT ME

I am a 26-year-old frontend developer with an eye for design and structure. I am meticulous and good at seeing what needs to be done.

I am a conscientious and responsible person with a positive attitude. I'm a cheerful girl who enjoys spreading the joy of life. I am passionate about creating a good environment where everyone is looked after, heard, and appreciated. I really enjoy working with others, but I also enjoy working independently.

I love learning new things and developing myself as a person and in my professional field. Constructive criticism and debate are always welcome as they help me improve as developer and person.

HTML

CSS

- Sass
- Material UI
- JSS
- Bootstrap

JavaScript

- React JS
- Next JS
- TypeScript
- Redux

Backend

- Sanity

TECHNICAL SKILLS

I am well versed in HTML, CSS, and JavaScript. When I write in JavaScript, I usually use it together with TypeScript.

I am most experienced with React JS + TypeScript. I also have experience with Next JS as I wrote my final exam with that framework.

Otherwise, I have experience with Sass, Material UI, Framer Motion, Bootstrap, Redux, Sanity, Figma, Adobe XD, Git, and JSS.

I am used to working in an agile workflow with sprints, story points and burndown charts.
