ABOUT ME

I am a 26-year-old frontend developer with a lot of customer experience. I am a conscientious and responsible person with a positive attitude. I have a driving force where I constantly work to improve myself as a person and in my line of work. I have a good eye for details and see what needs to be done.

I am humble and have no problem acknowledging mistakes or potential for improvement, and constructive criticism is well received. I am a team player and enjoy working with others, but also very independent and structured to work well by myself.

HTML

CSS
- Sass
- Material UI
- JSS
- Bootstrap

JavaScript
- React JS
- Next JS
- TypeScript
- Redux

TECHNICAL SKILLS

As a Frontend Developer I am well known with HTML, CSS, and JavaScript. When writing JavaScript, I prefer writing it in TypeScript.

Out of all the frameworks for JavaScript I am most experienced in React + TypeScript. I also have experience with Next.js as I wrote my final exam with that framework.

For styling I have the most experience with Sass and Material UI, but I also have experience using JSS and Bootstrap.

WORK EXPERIENCE

Apr. 2022 - present	**Berg-Hansen Reisebureau AS** Working as a Frontend Developer to create a new booking solution for Berg-Hansen's self-service website. We use technology such as React combined with TypeScript, Material UI and Redux.	Oslo
